POLITICAL SUBDIVISION OPTIONAL PROVISIONS

Whenever a new benefit provision is added to the retirement system through legislation, the provision is optional to a participating political subdivision (local government) if it will increase any future retirement cost to the political subdivision.

Following is a list of the optional provisions discussed in this booklet. *These provisions do not apply to employees of a political subdivision unless the political subdivision's chief governing body has authorized the provision.* Participating political subdivisions should inform their employees of any options that apply. Political subdivision employees who wish to know which of these options have been authorized by their employer should contact their employer or use the option search feature at www.treasury.state.tn.us/tcrs/PS-OptionsSearch.htm.

For a detailed explanation of these options, visit www.treasury.state.tn.us/tcrs/PS-OptionCodeExplanation.htm.

MEMBERSHIP

- ☐ Membership for part-time employees
- ☐ Probationary period of employment prior to membership
- ☐ Five-year vesting

CONTRIBUTIONS

- ☐ Elimination of the extra employee contributions on salary above the social security wage base
- ☐ Deferral of taxes on employee contributions under Section 414(h) of the Internal Revenue Code
- ☐ Non-contributory retirement plan

CREDITABLE SERVICE

- ☐ Retirement credit for armed conflict military service rendered prior to employment
- ☐ Partial retirement credit for peacetime military service rendered prior to employment and between October 15, 1940 and February 27, 1961
- ☐ Full retirement credit for first year of peacetime military service rendered prior to employment and between October 15, 1940 and February 27, 1961
- ☐ Full retirement credit for active duty military service during the Persian Gulf War that interrupts employment
- ☐ Purchase of service rendered during a probationary period
- ☐ Retirement credit for unused accumulated sick leave

- ☐ Members after age 70½
- ☐ Service credit for temporary disability

SURVIVOR BENEFITS

- ☐ 100 percent joint and surviving spouse death benefit for members having 10 years of service
- ☐ Death and disability benefits for inactive members
- ☐ Line-of-duty death benefits

RETIREMENT BENEFITS

- ☐ Supplemental benefits for public safety officers subject to mandatory retirement
- ☐ Five percent benefit improvement

SERVICE RETIREMENT

- ☐ Age 65 actuarial equivalent benefit

EARLY RETIREMENT

- ☐ 25-year reduced early retirement

MINIMUM BENEFIT

- ☐ Increase minimum benefit to \$8

RETIRED MEMBERS

- ☐ Provide compound cost-of-living adjustment for retirees
- ☐ Provide simple cost-of-living adjustment for retirees
- ☐ Special ad hoc increase for members retired before July 1, 1980
- ☐ Employer support for Medicare supplement insurance program

MEMBERSHIP

Membership in the TCRS is composed of full-time state employees, teachers in Tennessee public school systems, and employees of participating political subdivisions (local governments). Certain part-time employees are eligible to participate on an optional basis if authorized by the political subdivision's governing body. A participating political subdivision may establish a waiting period of up to six months before an employee enrolls in the retirement system.

GROUP I MEMBER

In general, all new employees or persons changing group classification on or after July 1, 1976 are Group I members regardless of their duties. Prior to July 1, 1976, Group I members were all teachers and general employees except those teachers and general employees who elected to remain in one of the superseded retirement systems when they were consolidated on July 1, 1972.

BENEFICIARY

Any employee enrolling as a member of the TCRS must make a beneficiary designation. If the designation is delayed, the spouse is presumed to be named. Until retirement, a member may designate one or more persons, his estate, one or more institutions, or any combination of such as his beneficiary. Secondary or contingent beneficiaries are not permitted. *Warning: Non-contributory employees (hired after July 1, 1981) without an account balance should always name one person (preferably a spouse) as beneficiary. Other designations could result in a loss of survivor benefits.*

Members should review the SURVIVOR BENEFITS section for help in deciding who to name as beneficiary. Certain death benefits are payable only to the surviving spouse. Estates, institutions, or multiple beneficiaries other than the member's spouse are only eligible for a lump-sum return of any contributions the member may have made to TCRS, plus an equal amount matched by TCRS if the member died while in service.

If the member dies prior to retirement, the designated beneficiary(s) will receive any applicable death benefit or a refund of the member's accumulated contributions. If the member fails to name a beneficiary or if the beneficiary dies before the member, the accumulated contributions, including any matching amount, will be paid to the member's estate.

It is very important that a member keep his TCRS beneficiary designation current. Situations such as divorce, marriage, or death do not automatically revoke the beneficiary designation. Prior to retirement, a member may change his designated beneficiary by submitting a notarized *Active Member Change of Beneficiary Form* to TCRS. (Changing the beneficiary designation for other benefits such as life insurance does not change the TCRS beneficiary.) This form will be provided by the TCRS upon request or may be downloaded from the TCRS Internet site. All *Active Member Change of Beneficiary Forms* are acknowledged by the retirement system and become effective upon receipt.

VESTED MEMBER

A vested member is one who has accrued enough years of service to guarantee him a retirement benefit once age requirements are met. A vested member who leaves covered employment may retain his membership until he retires or dies. However, if a vested member who has contributions credited to his account elects to withdraw those contributions following separation from service, he immediately loses membership.

A political subdivision employee joining the TCRS after June 30, 1979 attains vesting rights after either five or 10 years of service, depending upon the election made by the political subdivision. A political subdivision employee who joined on or before June 30, 1979 attains vesting rights after four years of service.

CONTRIBUTIONS

EMPLOYEE CONTRIBUTIONS

Contributions to the TCRS made by contributory members are deducted from their gross salary each pay period. Contributory members who participate through a political subdivision contribute five percent of their salary below the social security wage base and five and one-half percent of their salary above the wage base, unless the political subdivision has authorized the single five percent rate. The wage base for 2005 is \$90,000.

A statement showing the June 30 balance of accumulated contributions and interest is sent to each active member annually.

EMPLOYER-ASSUMED EMPLOYEE CONTRIBUTIONS

The employer may assume the employee contributions to the retirement system. If the employee was a TCRS member and employed by the political subdivision on the date the employer elected this provision, the employer-assumed employee contributions will be credited to the employee's individual account balance.

INTEREST

Interest of five percent is credited annually to each member's account for those members who have made employee contributions and for those members who are eligible to have their retirement accounts credited with employer-assumed employee contributions. Interest is computed on the preceding June 30 balance and is added to the member's accumulated contribution account. A member who terminates employment and withdraws his account balance is refunded the total contributions in his account plus interest through the month of the refund. Since the TCRS is a defined benefit plan, the amount of interest credited to employee accounts does not affect the retirement benefit payable to members who retire.

EMPLOYER CONTRIBUTIONS

All participating employers contribute a set percent of payroll determined by an actuarial valuation. The rate is subject to change every two years in order to keep the system actuarially sound. Employer contributions fund retirement and death benefits for members and are not refundable to the employer nor to the member.

TAX DEFERRAL ON EMPLOYEE CONTRIBUTIONS

Some members who contribute a portion of their income to the retirement system are covered by the provisions of Section 414(h) of the Internal Revenue Code. Under 414(h), payment of federal income tax on an employee's retirement contributions is deferred until these contributions are withdrawn in the form of a refund or monthly benefits. Political subdivision employees are covered by 414(h) only if their chief governing body has approved it.

CREDITABLE SERVICE

Service credit plays an important part in determining the amount of the retirement benefit. Each year of creditable service increases the dollar value of the monthly annuity.

A year of service credit is granted for each year of full-time employment during which contributions are made to the system. A member may earn a fraction of a year's credit if full-time employment ceases during the year or if the member is employed on a part-time basis. Teachers and employees of educational institutions will earn a full year's credit for each full school year completed. A member will not receive credit for more than one year of service per calendar year. A member is prohibited from receiving credit in this retirement system based on service for which he is receiving credit in another publicly supported retirement system.

The following types of prior service may also qualify as creditable if the necessary conditions are met. In most cases, members may pay for any costs of establishing any of these types of prior service either with a lump sum payment or by enrolling in the installment purchase plan. Except as specifically provided, employers cannot pay the costs for the member. In some instances, members may be able to make prior service payments by rolling over tax-deferred funds accumulated in a qualified pension plan.

PRIOR SERVICE

You have three choices for paying for the prior service. You may (1) write a personal check; (2) utilize the TCRS installment purchase plan; or (3) make a rollover or transfer from a tax-deferred 401(k) plan, 403(b) plan, governmental 457 plan, or traditional IRA. Details on using the TCRS installment plan are provided in the TCRS publication, *Purchasing Prior Service through the Installment Purchase Plan*.

WITHDRAWN SERVICE

Any member who has previously been a member of the retirement system and has withdrawn his account balance may reestablish retirement credit by a redeposit, provided that type of service is still creditable in the system. The redeposit consists of the total amount of contributions and interest withdrawn, including employer contributions made on behalf of the employee which were credited to the member's retirement account, plus interest since the date of withdrawal. (The rate of interest is the investment rate of return assumed for TCRS assets - currently 7.5%.) A member must complete at least 12 months of service before he is eligible to make a redeposit.

If a former member who never made contributions to the retirement system returns to covered service, his non-contributory prior service will be reestablished automatically. Service withdrawn from an employer no longer participating in the TCRS cannot be reestablished.

MILITARY SERVICE WHICH DID NOT INTERRUPT EMPLOYMENT

Retirement law also allows a member to establish up to four years of credit for military service which did not interrupt the member's public employment if that service was rendered under either of two conditions, provided the member received an honorable discharge and the military service is not credited in any other retirement system including the Active Duty Uniformed Services Retirement System. An exception to the dual credit prohibition exists if the member earned retirement credit for the military service in the federal retirement system for **non-regular** (e.g., National Guard and Reserves) military service.

A member may apply to the TCRS Prior Service section for retirement credit for non-interruptive military service at any time; however, no rights or benefits may be derived from the military credit until the member has earned vested rights.

1. **Service During a Period of Armed Conflict:** State employees may be eligible to establish credit for certain periods of armed conflict military service. If eligible, there is no cost to the member to establish this service.
2. **Peacetime Service:** State employees may be eligible to establish credit for certain peacetime military service. If eligible, a member who served in the armed forces of the United States during those periods will be entitled to receive retirement credit.

For the member's first year of peacetime military service, he may establish credit at the rate of one day of credit for every day of service. To establish the first year of military service, the member must make a payment equal to 10.5 percent of the member's current monthly salary for each month being established.

After the first year of military service, credit may be established on the basis of one day of creditable service for each two days of military service. To establish such service credit, the cost is nine percent of the monthly salary in effect at the time the credit is claimed multiplied by the number of months of credit being established. If the member is not in service at the time the service is claimed, the nine percent cost will be applied to the member's salary at termination of employment.

MILITARY SERVICE WHICH INTERRUPTED EMPLOYMENT

Any member who temporarily left employment with a political subdivision in order to perform military service in the armed forces of the United States and who is reemployed by the same political subdivision within six months of honorable discharge, may establish retirement credit for the military service. To receive the credit, the cumulative length of the absence and of all previous absences from state employment by reason of service in the uniformed services cannot exceed five years, except under limited circumstances which are listed in the Federal Veterans Reemployment Right Act (currently known as the Uniformed Services Employment and Reemployment Rights Act of 1994 [USERRA]).

If the service was performed during a period of armed conflict as defined below or during the Persian Gulf War, credit may be established free of charge if authorized by the political subdivision. If the service was not performed during a period of armed conflict, the member must make a lump-sum payment equal to the amount he would have contributed had he remained an active contributing member.

Designation of Service Periods:	
Korea (armed conflict)	June 27, 1950 - January 31, 1955
Peacetime	February 1, 1955 - February 27, 1961
Vietnam (armed conflict)	February 28, 1961 - May 7, 1975
Interrupted	May 8, 1975 - present
Persian Gulf	August 2, 1990 - present

SERVICE PRIOR TO ENROLLMENT

A member may be eligible to receive retirement credit for service rendered prior to his enrollment in the retirement system upon making application to the Prior Service section and

paying the required contributions plus interest. The kinds of service which may be established include the following:

- ❖ Any Group I member of the retirement system may claim credit for any service as a member of the General Assembly or as a delegate to a state constitutional convention.
- ❖ Any general employee of a political subdivision employed by the subdivision on its date of participation may claim credit for any period of service to the political subdivision as authorized by the political subdivision, provided such employee joins the retirement system within 30 days of the political subdivision's participation date. In the event the employee was not continuously employed by the employer from the period of prior service being claimed through and including the political subdivision's participation date, the employee must have been employed by the employer on such date and continuously for six months immediately before or after that date.
- ❖ If authorized by the political subdivision, any employee who was required to wait for a period of up to six months before joining the TCRS may establish credit for that period of service.
- ❖ A Group I member may claim credit for certain part-time service if the political subdivision has authorized this optional provision.

ACCUMULATED SICK LEAVE

If authorized by the political subdivision, an employee who has unused accumulated sick leave on the date of his retirement may receive one month of retirement credit for each 20 days of unused leave. Sick leave is not recognized for retirement purposes until the member has retired and the sick leave has been certified by the employer.

EDUCATIONAL LEAVE

Any member who is a full-time employee may receive retirement credit for an educational leave of absence upon meeting the following requirements:

- ❖ The leave must interrupt the member's service.
- ❖ The leave must be for the purpose of attending school or engaging in academic research related to such employment which is intended to increase his efficiency to his employer.
- ❖ Within one year following the leave, the member must return to service with his former employer for at least one year. If the member left a teaching position, he must return to a Tennessee public school or higher education institution.
- ❖ The member must file an *Educational Leave of Absence Form* and his employer must certify that the leave is for an educational purpose.
- ❖ The TCRS must approve this credit. Retirement credit for educational leave of absence cannot exceed an aggregate of two years for any member during his working career. The receipt of certain competitive awards may extend this period to four years.

Employees considering taking educational leave should check with TCRS regarding required contributions.

SEPARATION FROM SERVICE

Following separation from service, a member may retain his membership in the retirement system for a period of time determined by his vesting status, or if he has contributions credited to his account, he may elect to withdraw those contributions and immediately lose membership and all rights and privileges in the retirement system.

Vested Member: A vested member who leaves covered employment prior to retirement or death may retain his membership until he retires or dies. However, if a vested member elects to withdraw his account balance following separation from service, he immediately loses membership.

Non-Vested Member: A non-vested member who leaves covered employment may retain his membership in the retirement system for seven years thereafter. After that point, he automatically loses membership and no further interest is credited to his account. Any non-vested member who has contributions credited to his account who leaves covered employment has the alternative of electing to withdraw his account balance and to lose membership immediately following separation from service. A non-vested member who expects to return to covered employment in the future would normally leave his contributions in the system. Contributions should not be left in the retirement system after a member reaches age 70½ because the funds may become subject to a penalty tax assessed by the federal government.

REFUNDS

Upon termination of employment, a member whose retirement account has been credited with employee contributions or employer-assumed employee contributions may apply for a refund of his account balance. Employer contributions are not refundable. By obtaining a refund, a member loses all rights and benefits in the retirement system.

A member whose total service is non-contributory will not have any contributions credited to his account; therefore, he is not eligible for a refund.

A refund is not automatically processed upon termination of employment. A refund cannot be processed until two conditions are met:

1. The member must complete an *Application for Refund of Accumulated Contributions*, have it notarized, and file it with the retirement office. The employer must also certify the application. Applications are available from personnel officers, employers, the TCRS Internet site, or from the TCRS Refund section.
2. Before the refund can be issued, the retirement office must receive the retirement contribution applicable to the member's final paycheck. Since accumulated leave may cause paychecks to continue for several weeks or months after termination, receipt of the last contribution may be delayed.

A refund will normally be issued within 30 days after all requirements are met.

A member may not receive a refund if he has transferred employment from one employer covered by TCRS to another employer covered by TCRS, if he has transferred membership to the optional retirement program (ORP) sponsored by the state, or if he is on authorized leave.

TCRS is required by federal law to withhold federal income tax from all refunds issued to former members. The withholding rate is currently 20 percent of the taxable portion. Any member who plans to roll his refund over to an Individual Retirement Account (IRA) or another retirement plan may be able to avoid having 20 percent withholding applied by arranging to have the refund *transferred directly*. For more information, refer to the TCRS publications, *Taxes on TCRS Benefits* and *Special Tax Notice Regarding Plan Payments*.

SURVIVOR BENEFITS

One of several death benefits may be payable to the designated beneficiary of a member who dies prior to retirement. The type of death benefit payable will be determined by whether or not death occurred while in service, who is nominated as beneficiary, and by the member's length of service.

A member may designate one or more persons, his estate, one or more institutions, or any combination of such as his beneficiary. Estates, institutions, and multiple beneficiaries are only eligible for a lump-sum death benefit and may not receive a monthly annuity, unless the member's surviving spouse is one of the beneficiaries named. If the member's surviving spouse is named, the spouse will be entitled to receive any monthly annuity which would otherwise have been payable had the surviving spouse been named the sole beneficiary. If the named surviving spouse elects to receive a monthly annuity, no benefits are payable to the remaining beneficiaries. If the named surviving spouse elects to receive the lump sum death benefit, the payment will be distributed in equal proportions among the named surviving spouse and the other surviving beneficiaries.

In addition, if a single beneficiary is named other than the member's spouse, the beneficiary is only eligible for the lump-sum death benefit unless the member has reached retirement eligibility. A member whose total service is non-contributory and who will not have any employee contributions in his account should always name his spouse or one person as beneficiary.

LUMP-SUM DEATH BENEFIT

If a member whose retirement account has been credited with employee contributions or employer-assumed employee contributions dies prior to retirement, his designated beneficiary will be eligible to receive a lump-sum refund of the contributions and interest in his account. If the member was in service on the date of his death, his designated beneficiary will receive an additional amount equal to the accumulated contributions and interest. The beneficiary of a member who had at least 10 years of service may convert the lump-sum amount into a monthly annuity payable over a period not to exceed 10 years. This 10-year conversion is not available to multiple beneficiaries, an estate, nor an institution. The beneficiary of a member whose total service is non-contributory is never eligible for the lump-sum refund death

benefit. The beneficiary may be entitled, however, to a monthly benefit defined below, provided the age and service requirements are met by the member at the time of his death.

SURVIVOR ANNUITIES

Unless the political subdivision has authorized annuity death benefits for inactive members, the following benefits provisions apply to beneficiaries of members who die while in service. An employee is considered “in service” if he has not been refunded or retired and death occurs within 150 days of his last paid day of employment with a covered employer.

The following annuity benefits may be reduced by the early reduction factor and/or the appropriate option factor. Refer to the BENEFIT PAYMENT PLANS section for more information.

- ❖ **100 Percent Joint and Survivor Annuity for Spouse after 10 Years Service:** If authorized by the political subdivision, the surviving spouse of an in-service member who has 10 years or more of creditable service is automatically eligible for a 100 percent Joint and Survivor Monthly Annuity, provided the spouse is named as the member’s beneficiary. The benefit would be computed as if the member had retired on the date of his death.
- ❖ **100 Percent Joint and Survivor Annuity for any Beneficiary:** When a vested member reaches the conditions for early or service retirement and dies in service, this option will provide a 100 percent Joint and Survivor Annuity for any one-person beneficiary designated by the member.
- ❖ **50 Percent Joint and Survivor Annuity for Spouse:** When a member dies after attaining age 60 with 10 years of creditable service or after completing 30 years of creditable service, his spouse may be entitled to a 50 percent Joint and Survivor Annuity, provided the spouse is named as the member’s beneficiary. This benefit is available to the surviving spouse of an in-service political subdivision employee who was employed by a local government which had not passed a resolution authorizing the 100 percent Joint and Surviving Spouse Annuity defined above.
- ❖ **50 Percent Joint and Survivor Annuity for Spouse of Inactive Member with 10 Years Service:** If authorized by the political subdivision, the surviving spouse of a member not in service who has 10 years or more of creditable service is automatically eligible for a 50 percent Joint and Survivor Annuity, provided the spouse is named as the member’s beneficiary. The benefit would be computed as if the member had retired on the date of his death.
- ❖ **Line-of-Duty Death Benefit:** This optional provision provides that the surviving spouse or surviving minor children of an in-service member who dies as the result of an accident or physical violence occurring in the performance of duty will be entitled to a benefit equal to 50 percent (52.5 percent if the five percent benefit improvement has been authorized) of the member's average final compensation. This provision provides guaranteed total minimum benefits of \$50,000 to any named beneficiary(s). If the member's spouse is named as beneficiary and the spouse dies, the benefit will continue to the minor children until they reach age 18 or die.

RETIREMENT BENEFITS

APPLICATION

Before retirement benefits begin, the member must complete an *Application for Retirement Benefits* and submit it to the retirement system. The form may be obtained from the TCRS website, www.treasury.state.tn.us/tcrs, from the member's employer, or from TCRS.

In order to ensure that benefits will begin promptly, it is suggested that the member submit the application 60 to 90 days before his retirement date. The retirement office will acknowledge all retirement applications upon receipt. Any member who does not receive an acknowledgment should contact his employer or the TCRS Benefits section.

The first TCRS benefit payment sent to the member will include payments retroactive to the member's effective date of retirement. If a member leaves service with the intent of retiring but delays filing an *Application for Retirement Benefits*, the application may only be backdated up to 150 days from the actual date of receipt. For example, if a member who is eligible to retire terminates employment on January 2, 2006, but does not submit an *Application for Retirement Benefits* to the TCRS office until August 2, 2006, his effective date of retirement will be March 6, 2006. The benefits from January 2 to March 6 would be lost.

Upon processing the *Application for Retirement Benefits*, TCRS will send the member a letter confirming the information used to compute the benefit. TCRS will also inform the member of the amount he would be eligible to receive under each of the other benefit payment plans, and the member will be allowed 60 days in which to change the payment plan he initially selected.

BENEFIT FACTORS

TCRS is a "defined benefit" retirement plan, which means that the amount of any future benefit will be determined by a benefit formula rather than by an account balance. The formula for computing a monthly retirement allowance consists of the member's average final compensation, years of creditable service, and the social security integration level.

Average Final Compensation (AFC) is the average of the member's five highest consecutive years of salary.

Creditable Service means membership service under the TCRS for which contributions are made by the member plus any other periods of service credited to the member by the retirement system (military service, sick leave, etc.).

Social Security Integration Level (SSIL) is an average of social security wage bases. It allows the benefit formula to provide a slightly higher benefit rate on a portion of the AFC. Since social security benefits are weighted in favor of the lower paid employee, TCRS weights benefits slightly in the other direction so that total benefits can be more level in terms of percentage of income replaced. The social security integration level is expected to be \$43,800 for 2005, \$45,600 for 2006, and \$47,400 for 2007. Since the social security wage base increases each year, it is expected that the SSIL will continue to increase in future years.

FIVE PERCENT IMPROVEMENT

If the optional five percent benefit improvement (BIP) has been approved by the political subdivision, each retiree's base benefit will be increased by five percent. If authorized, this increase applies to monthly retirement or disability benefits as well as to monthly death benefits. It does not apply to lump-sum distributions.

MAXIMUM BENEFIT

The benefit at retirement is limited to 90 percent of the member's average final compensation. If authorized by the political subdivision, the maximum benefit may be increased to 90 percent of the member's average final compensation. If the political subdivision has authorized the optional five percent benefit improvement, the benefit at retirement is limited to 94.5 percent of the member's average final compensation.

POTENTIAL LOSS OF BENEFITS

Any member who is convicted in state or federal court of a felony arising out of his employment or official capacity which constitutes malfeasance in office may be prohibited from receiving benefits. This prohibition applies to anyone joining TCRS on July 1, 1982 who is convicted of such a felony in a Tennessee state court as well as anyone joining on or after May 31, 1993 who is convicted of such a felony in a federal court. If the conviction is later overturned and the member is acquitted or is granted a full pardon, the member shall be restored all rights, privileges and benefits as if the conviction never occurred.

Any person convicted of a felony as provided above may elect, within six months of the person's conviction, to have a monthly retirement allowance paid to whomever that person had designated as beneficiary at the time of that person's conviction. However, the beneficiary must have been that person's spouse or child at the time of that person's conviction. The benefits will be payable to the beneficiary upon the person's death provided all other eligibility requirements applicable to a beneficiary have been met. The amount of the benefits will equal the retirement allowance which would have been payable had the person retired under the survivorship option elected.

SERVICE RETIREMENT

ELIGIBILITY

Vested members become eligible for service retirement upon completion of 30 years of creditable service or upon attainment of age 60. Depending on his date of membership, a member becomes vested with four, five, or ten years of creditable service. (See MEMBERSHIP-Vested Member.)

BENEFIT CALCULATION

The following example shows the formula method used for computing the TCRS retirement allowance for a member with 10 or more years of service. The example uses a 60-year-old member retiring under the maximum payment plan in 2005 with an average final compensation of \$46,000, a social security integration level of \$43,800, and 30 years of service.

<u>Benefit Rate</u>		<u>AFC</u>		<u>Years of Creditable Service</u>	
.0150	x	\$46,000	x	30	\$20,700
<u>Benefit Rate</u>		<u>AFC In Excess of SSIL</u>		<u>Years of Creditable Service</u>	
.0025	x	\$ 2,200	x	30	+ \$ 165
					\$20,865
					÷ 12
Monthly Benefit Without 5% Improvement					\$ 1,739
Optional 5% Benefit Improvement (BIP)					x 1.05
Monthly Benefit With 5% Improvement					\$ 1,826

If authorized by the political subdivision, a member who remains in service after age 65 will automatically receive the greater of a service retirement allowance or the actuarial equivalent of the benefit that would have been payable at age 65.

The following schedule provides sample estimates of Group I TCRS monthly benefits for 2005 under the maximum plan. Members may also create individual service retirement benefit estimates using the TCRS benefit calculator at www.treasury.state.tn.us/tcrs on the Internet.

Social security benefit estimates may be obtained from your local social security office or by using Social Security's benefit calculator at www.ssa.gov/retire on the Internet. The benefits provided by the TCRS are in addition to benefits payable by social security.

GROUP I SCHEDULE
Includes 5% Benefit Improvement
Estimated Monthly Benefits at Age 60
2005 Retirement

Average Salary	5 Yrs.	10 Yrs.	15 Yrs.	20 Yrs.	25 Yrs.	30 Yrs.	35 Yrs.
\$ 15,000	\$ 98	\$ 197	\$ 295	\$ 394	\$ 492	\$ 591	\$ 689
16,000	105	210	315	420	525	630	735
17,000	112	223	335	446	558	669	781

EARLY RETIREMENT

The retirement law provides three permanently reduced benefits which may be payable to a vested member who retires early.

1. A member with 10 years of service may retire at age 55. The benefit is computed in the same manner as for service retirement; however, there is a permanent reduction of 0.4 percent for each month by which the member's date of early retirement precedes his service retirement date.

The retirement benefits are reduced to the following percentages of a service retirement allowance:

Service Retirement	100.0%
1 Year Early	95.2%
2 Years Early	90.4%
3 Years Early	85.6%
4 Years Early	80.8%
5 Years Early	76.0%

The following example shows the formula used for computing the TCRS retirement allowance for a member with 20 years of creditable service. The example uses a 55-year-old member retiring in 2005, five years before his service retirement date with 20 years of creditable service, an average final compensation of \$46,000, and a social security integration level of \$43,800.

<u>Benefit Rate</u>		<u>AFC</u>		<u>Years of Creditable Service</u>	
.0150	x	\$46,000	x	20	\$13,800
<u>Benefit Rate</u>		<u>AFC In Excess of SSIL</u>		<u>Years of Creditable Service</u>	
.0025	x	\$ 2,200	x	20	+ \$ 110
					\$13,910
					÷ 12
					\$ 1,159
		100% - (.4% x 60 months early)	x	.7600	
		Monthly Benefit Without 5% Improvement		\$ 881	
		Optional 5% Benefit Improvement (BIP)	x	1.05	
		Monthly Benefit With 5% Improvement		\$ 925	

For the purpose of determining an early retirement benefit, TCRS uses the requirement for service retirement most favorable to the member. The requirement for a service retirement benefit is that a member be age 60 or have 30 years of service. If a member retires on an early retirement at age 59 with 20 years of service, TCRS would compute the member as retiring one year early based on his age in order to provide the larger benefit. On the other hand, if a member is age 55 with 29 years of service, TCRS would compute the member as retiring one year early based on his years of service, not his age, since under these circumstances this method would provide the member with a larger benefit.

2. A member who retires prior to age 60 with less than 10 years of service will have his benefit computed as outlined above with an additional 15 percent reduction for each year or partial year lacking 10 years.
3. A member may retire prior to age 55 upon attaining 25 years of creditable service. In this situation, the member's benefit will be the actuarial equivalent of the benefit payable at age 55. This benefit provision is available to political subdivision employees if authorized by the governing body.

The following example shows the formula used for computing the TCRS retirement allowance for a member with 25 years of service who is less than age 55. The example uses a 50-year-old member retiring in 2005, five years before his service retirement date. There is an additional age-based actuarial reduction factor if the member is less than 55 years old.

<u>Benefit Rate</u>		<u>AFC</u>		<u>Years of Creditable Service</u>	
.0150	x	\$46,000	x	25	\$17,250
<u>Benefit Rate</u>		<u>AFC In Excess of SSIL</u>		<u>Years of Creditable Service</u>	
.0025	x	\$ 2,200	x	25	+ \$ 137
					\$17,387
					÷ 12
					\$ 1,449
100% - (.4% x 60 months early)					x .7600
					\$ 1,101
Age 50 Actuarial Reduction Factor					x .6267
Monthly Benefit Without 5% Improvement					\$ 690
Optional 5% Benefit Improvement (BIP)					x 1.05
Monthly Benefit With 5% Improvement					\$ 725

SUPPLEMENTAL BENEFITS FOR PUBLIC SAFETY OFFICERS

Group I firefighters and police officers and certain other employees of the fire and police departments may be subject to mandatory retirement on the first day of the month following age 60 or older if the political subdivision has adopted a mandatory retirement age.

Any Group I member who retires at or after age 60 in accordance with a political subdivision's mandatory retirement requirement is eligible for a supplemental bridge benefit in addition to the regular service retirement benefit. This supplemental benefit shall be equal to .75% of the member's average final compensation, multiplied by the member's years of creditable service in a position covered by the mandatory retirement law. The initial supplemental benefit may not exceed 22.5% of the member's AFC. Supplemental bridge benefits are eligible for cost of living adjustments in accordance with the political subdivision's cost of living adjustment election; however, all supplemental benefits shall cease upon the earlier of the member's death or eligibility for early social security benefits (currently age 62).

DISABILITY RETIREMENT

Retirement due to a total and permanent medically determinable mental or physical disability is possible for eligible members who can no longer engage in any type of gainful employment and who are ineligible for service retirement.

APPLICATION

An *Application for Disability Retirement Benefits* can be obtained from the TCRS Disability Office. The member must furnish a completed retirement application, a completed personal *Statement of Disability*, a completed *Vocational History Form*, and an *Attending Physician's Report of Disability*. The TCRS medical panel will usually review the member's application before the TCRS approves or denies it.

Since this process may take more time than a regular retirement application, a member retiring on disability may experience some delay in receiving the first payment; however, benefits will be paid retroactive to the member's effective date of retirement.

ORDINARY DISABILITY

To be eligible for an ordinary disability retirement allowance, a member must be ineligible for a service retirement benefit, have a minimum of five years of creditable service, and be unable to engage in gainful employment due to a total and permanent physical or mental disability.

Gainful employment means any type of work which results in earnings considered by the Social Security Administration to be gainful for disability recipients from that system—currently \$830 or more per month. It is important to note that eligibility for TCRS disability benefits is *not* determined by a member's inability to perform his *current* job, but rather by the inability to perform *any type of gainful employment*.

Ordinary disability benefits for members who become disabled while in service are equal to 90 percent of the service retirement allowance that would have been payable to the member.

If the member has less than 20 years of creditable service, a part or all of the additional years he would have had if he continued in service to age 60 may be added to his creditable years, but in no event can the total exceed 20 years unless the member's actual service exceeds 20 years. If authorized by the political subdivision, a minimum of 10 years may be used in calculating disability benefits.

This example shows the formula method used for computing an ordinary disability allowance. The example uses a disabled member who retires under the maximum plan in 2005 with 10 years of actual service and 10 years of projected service.

<u>Benefit Rate</u>		<u>AFC</u>		<u>Years of Creditable Service</u>	
.0150	x	\$46,000	x	20	\$13,800
<u>Benefit Rate</u>		<u>AFC In Excess of SSIL</u>		<u>Years of Creditable Service</u>	
.0025	x	\$ 2,200	x	20	+ \$ 110
					\$13,910
<i>Disability Factor</i>				x	<u>.9</u>
Annual Disability Benefit					\$12,519
					÷ <u>12</u>
Monthly Disability Benefit Without 5% Improvement					\$ 1,043
<i>Optional 5% Benefit Improvement (BIP)</i>				x	<u>1.05</u>
Monthly Disability Benefit With 5% Improvement					\$ 1,095

When a disability retiree receiving ordinary disability benefits reaches age 60, his benefits will be increased to 100 percent of a service retirement benefit.

If authorized by the political subdivision, the system also provides special benefits for members who are not in service at the time of disability. The benefit is the actuarial equivalent of the retirement benefit that would have been payable at age 55.

ACCIDENTAL DISABILITY

A member who becomes totally and permanently disabled from engaging in gainful employment as the result of an accident or physical violence against his person occurring while in the performance of duty, without negligence on his part, may be retired on an accidental disability retirement allowance. There is no minimum service requirement for this benefit; however, the accident must have been job related.

For anyone becoming a Group I member on or after July 1, 1997, accidental disability benefits are calculated using the ordinary disability benefit formula.

For anyone who became a Group I member before July 1, 1997, accidental disability benefits are calculated as follows. The monthly benefit is equal to 50 percent of the member's average final compensation divided by 12. If the optional five percent benefit improvement has been approved by the political subdivision, the benefit would be equal to 52.5 percent of the member's average final compensation. If the member receives a social security disability benefit or reaches age 62, his base benefit from this system is reduced to one-third of his average final compensation. If the optional five percent benefit improvement has been approved, the base benefit would be reduced to 34.96 percent of the member's average final compensation. All recipients of TCRS accidental disability benefits under this formula are required to apply for social security. If the member does not apply for social security, TCRS benefits will be paid at the lower rate.

REEVALUATION

The TCRS will request current medical evidence from a disability retiree each year until the retiree has attained age 60, or until the retiree's condition supports a decision to end this

practice. The purpose of the reevaluation process is to determine if the member continues to be totally and permanently disabled from all gainful employment. If medical evidence fails to support a continuing disability, the disability benefit will cease.

A disability retiree is also required to report all earnings on an annual basis and his retirement benefit may be reduced or suspended based upon the amount of income earned. For more information see the RETIRED MEMBERS section of this booklet.

APPEAL

An applicant who is denied disability benefits may request that his case be reconsidered based upon new medical evidence. All new medical evidence, in addition to that submitted on the original application, will be reviewed again by the TCRS medical panel.

If the disability applicant cannot produce new evidence but still wishes to appeal the original decision, or if the member is reconsidered and subsequently denied, he may appeal the decision to the TCRS director. After meeting with the director and reviewing the facts of his case, he may request a hearing before the TCRS Board of Trustees.

Requests for reconsideration (with the new medical evidence) must be made within 90 days of the initial denial. If not, the member's application will be void.

INTEGRATION WITH WORKERS' COMPENSATION

In cases where members receive Workers' Compensation benefits in addition to ordinary or accidental disability benefits from the retirement system, the TCRS benefit will be limited so that total benefits from the TCRS and Workers' Compensation will not exceed either 75 percent or 78.75 percent of the member's average final compensation, depending on whether the political subdivision has authorized the optional five percent benefit improvement.

FOR MORE INFORMATION

Additional information on disability retirement rules and benefits may be found in the *Disability Retirement Benefits* booklet, available by request from TCRS or from the TCRS Internet site.

MINIMUM BENEFIT

The minimum retirement allowance payable to any member who has 10 years or more of creditable service and who has met the conditions for service retirement is \$8 per month multiplied by the number of years of creditable service. The minimum retirement allowance is \$7 per month for members who retire with less than 10 years, or political subdivision employees whose governing body has not passed a resolution authorizing the \$8 per month rate. The benefit will be reduced if the member retires early or if he chooses an optional payment plan. The minimum benefit before reductions cannot exceed 100 percent of the member's average final compensation.

EXAMPLES

1. Minimum Benefit under Service Retirement:

Assume Age 60 with 15 years of service

$\$8 \times 15 = \120

TCRS Monthly Benefit = \$120; \$126 with optional 5% Benefit Improvement

2. Minimum Benefit Under Early Retirement:

Assume Age 55 with 15 years of service

$\$8 \times 15 = \120

Early Reduction Factor = .7600

TCRS Monthly Benefit = \$91; \$96 with optional 5% Benefit Improvement

3. Minimum Benefit Under Disability Retirement:

Assume Age 50 with 15 years of actual service

(service is not projected under the minimum disability benefit).

$\$8 \times 15 = \120

TCRS Monthly Benefit = \$120; \$126 with optional 5% Benefit Improvement

BENEFIT PAYMENT PLANS

A member may elect to receive his retirement allowance under one of six payment plans provided by the TCRS.

After the member's retirement allowance has been processed, he will be notified by letter of the amount of his benefit under the payment plan selected as well as the amount he would be eligible to receive under each of the other payment plans. The member will be allowed 60 days from the date of the notice letter to change the payment plan initially selected. After this 60-day period, the election of an optional payment plan cannot be changed nor revoked by the member. A member who selects the regular or maximum plan may change to an option at a later date by repaying the difference in benefits.

The following payment plans are available to retirees:

SINGLE LIFE ANNUITIES

- ❖ **Regular or Maximum Plan:** Maximum monthly benefits are payable to a member for life, with all benefits ceasing at death. Monthly benefits end at the member's death, but the beneficiary is entitled to payment of the remaining contributions, if any, which had been credited to the member's account and which were not returned to the member in the form of retirement benefits.
- ❖ **Social Security Leveling:** A member may convert his retirement allowance into an increased benefit payable prior to the date he attains age 62 and a reduced allowance payable after that date, so that his total income will be approximately the same before and after the commencement of social security payments. Monthly benefits end at the member's death, but the beneficiary is entitled to payment of the remaining contributions, if any, in the member's account which were not returned to the member in the form of retirement benefits.

If this plan is elected, the member must furnish the retirement system with a social security estimate. It is the member's responsibility, upon attaining age 62, to apply for his social security benefit.

For example, assume a member is age 55, has 30 years of service, and has an average final compensation of \$42,000. His estimated social security benefit at age 62 is \$900 per month. TCRS will pay a percentage of the estimated social security benefit based upon the member's age at retirement in addition to the TCRS regular benefit. At age 62, the member's benefit is reduced by the estimated social security benefit.

	Income Before	Income After
	<u>Age 62</u>	<u>Age 62</u>
TCRS Regular Benefit	\$1,826	\$1,826
TCRS SSL Adjustment	<u>+ 462</u>	<u>- 438</u>
Total TCRS Benefit	\$2,288	\$1,388
Social Security	<u>+ 0</u>	<u>+ 900</u>
Total TCRS and SS Income	\$2,288	\$2,288

Any cost of living adjustments before and after age 62 are based upon the regular plan benefit.

JOINT AND SURVIVOR ANNUITY OPTIONS

If a joint and survivor annuity option is elected, the member must provide the retirement office with proof of the date of birth of the beneficiary. Examples of documents that can be accepted as proof of date of birth are a birth certificate, infant baptismal certificate, family Bible record, school record or military record.

If a joint and survivorship plan (Option I, II, III, or IV) is selected, the plan cannot be changed, even if there is a divorce, death, or other change of circumstances. A new beneficiary cannot be added to a survivorship plan.

- ❖ **Option I-100 Percent Joint and Survivor:** A permanently reduced retirement allowance is payable during the retired member's life, with the provision that it will continue after his death for the life of, and to, his designated beneficiary. If the beneficiary dies before the member, the monthly allowance will remain the same.
- ❖ **Option II-50 Percent Joint and Survivor :** A permanently reduced retirement allowance is payable during the retired member's life, with the provision that it will continue after his death at one-half the rate paid to him and be paid for the life of, and to, his designated beneficiary. If the beneficiary dies before the member, the monthly allowance will remain the same.
- ❖ **Option III-Modification of Option I:** A reduced retirement allowance is payable during the retired member's life with the provision that it will continue after his death for the life of, and to, his designated beneficiary. If the designated beneficiary dies before the retiree, the retirement allowance will revert to the maximum amount.

- ❖ **Option IV-Modification of Option II:** A reduced retirement allowance is payable during the retired member's life, with the provision that it will continue after his death at one-half the rate paid to him and be paid for the life of, and to, his designated beneficiary. If the designated beneficiary dies before the retiree, the retirement allowance will revert to the maximum amount.

OPTION FACTORS

If the retiree chooses one of the optional payment plans, the regular or maximum plan benefit will be reduced to an actuarially determined percentage based on the ages at retirement of the retiree and the beneficiary. The option factors are subject to change by the Board of Trustees based upon the actuarial assumptions recommended by the actuary.

Examples of the percentages of the regular service or early retirement benefits paid under the various options are shown in the following chart.

<u>Age of Retiree</u>	<u>Age of Beneficiary</u>	<u>Option I</u>	<u>Option II</u>	<u>Option III</u>	<u>Option IV</u>
50	50	88.18%	93.72%	87.04%	93.07%
50	55	90.72	95.13	89.27	94.33
50	60	93.05	96.40	91.33	95.47

EXAMPLE OF CALCULATION

<u>Benefit Rate</u>		<u>AFC</u>		<u>Years of Creditable Service</u>	
.0150	x	\$46,000	x	30	\$20,700
<u>Benefit Rate</u>		<u>AFC In Excess of SSIL</u>		<u>Years of Creditable Service</u>	
.0025	x	\$ 2,200	x	30	+ \$ 165
					\$20,865
					÷ 12
					Monthly Benefit Without 5% Improvement \$ 1,739
					Optional 5% Benefit Improvement (BIP) x 1.05
					Monthly Benefit With 5% Improvement \$ 1,826

		<u>Member</u>	<u>Beneficiary</u>
Regular Plan		\$1,826	\$ 0
Option I	(\$1,826 x 83.96%)	\$1,533	\$1,533
Option II	(\$1,826 x 91.28%)	\$1,667	\$ 833
Option III	(\$1,826 x 81.62%)	\$1,490	\$1,490
Option IV	(\$1,826 x 89.88%)	\$1,641	\$ 821

This example assumes that both the member and beneficiary are age 60.

RETIREMENT PLANNING SERVICES

ANNUAL STATEMENT

Each year a member is actively employed, TCRS will prepare an annual statement for the member. The statement will show the salaries reported to TCRS, the amount of service credit with TCRS, vesting status, the TCRS beneficiary, and estimates of the TCRS benefits available under various circumstances. TCRS sends the statements to the employers to distribute.

SPECIAL PUBLICATIONS

Members are encouraged to review *Retirement a New Beginning* and the *Retirement Planning Checklist* on our Internet site (www.treasury.state.tn.us/tcrs) or to request them by mail.

GROUP MEETINGS

A TCRS representative is available upon request to meet with employee groups across the state to discuss the benefits provided by the retirement system. Contact the TCRS Counseling Services Division to schedule a group meeting.

PERSONAL CONFERENCES

Retirement benefit counselors are available in Nashville to provide estimates of benefits, information on options, service credit verification, or to answer questions concerning retirement. Appointments are preferred, but are not required. Please call 615-741-1971 to schedule an appointment.

If the member prefers, the retirement process can be handled entirely by mail between the member and the system.

ESTIMATE OF BENEFITS

Members may create and print a TCRS estimate using the benefit calculator at www.treasury.state.tn.us/tcrs on the Internet. To request an estimate of retirement benefits by mail, the member should include the following information.

1. Full name, social security number, and current mailing address.
2. Date of anticipated retirement.
3. Number of years of creditable service and accumulated sick leave.
4. Date of birth (month, day, year).

5. If considering options, include the name and date of birth of the person to be designated as the beneficiary.

An estimate is strictly a projection of benefits prior to retirement and is subject to change based on actual information used at the time of retirement.

RETIRED MEMBERS

COST-OF-LIVING ADJUSTMENTS

If authorized by the participating political subdivision, any retired employee who has been retired for at least 12 full months on July 1 of each year is eligible to receive an adjustment in his retirement allowance based on any increase in the Consumer Price Index for the preceding calendar year.

If there is an increase in the Consumer Price Index of as much as one-half of one percent in any year, retired members will receive a cost-of-living adjustment, not to exceed three percent. Adjustments appear on the July 31 check.

BENEFIT FORMULA CHANGES AFTER RETIREMENT

Retirees may receive any increases due to changes in the benefit formula after their retirement date, if the adjustments are authorized by the local government.

HOSPITALIZATION INSURANCE BEFORE MEDICARE ELIGIBILITY

Local government agency employees or their dependents may be eligible to continue coverage in the local government plan at retirement. Retired employees or their dependents may continue until they become eligible for Medicare. Dependents must be covered at the time of retirement and must continue to meet eligibility conditions.

The eligibility guidelines for continuation of insurance coverage are as follows:

- ❖ Age 55 with 10 years of employment with the agency from which they retire, and at least three years of insurance coverage immediately prior to retirement. Coverage must begin immediately upon retirement, unless the retiree goes to work for another agency participating in a State sponsored plan.
- ❖ Age 55 with 20 or more years of employment with the agency from which they retire and at least one year of insurance coverage in the plan immediately prior to retirement. Coverage must begin immediately upon retirement, unless the retiree goes to work for another agency participating in a State sponsored plan.
- ❖ 30 or more years of employment with the agency from which they retire and at least one year of insurance coverage in the plan immediately prior to retirement.

Upon the death of a retiree, a covered spouse or dependent will receive six months free insurance coverage. Continuation of coverage beyond the six-months free coverage will be made available to those dependents that are covered by the plan upon the retiree's death and are not eligible for Medicare.

Tennessee Consolidated Retirement System

Employees who qualify for disability retirement through TCRS may continue coverage if they participated in the State plan at the time the injury or illness occurred and have five years of service. Coverage will terminate once the retiree becomes eligible for Medicare Part A.

When an employee retires, he may only continue coverage under the same plan he had before retirement unless he does not live in the service area for that plan. Any retiree covered by an option that has a limited service area and who moves out of the service area should notify TCRS immediately so that coverage may be transferred. Once a year, retirees will be allowed to review their health coverage and transfer to other available plans if desired.

Eligible employees who wish to continue insurance coverage after retirement should submit an *Application for the Continuation of Insurance* with their retirement application to TCRS. The application must be submitted within a full calendar month from the effective date of retirement.

If eligible retirees do not enroll within a full calendar month from the effective date of retirement, they may only re-enroll if they were on the medical insurance at the time they retired and were eligible to continue that coverage by their length of service and their length of participation in the plan. They must also qualify by meeting a special enrollment provision under the guidelines of the Health Insurance Portability and Accountability Act (HIPAA) or by being approved as a late applicant by medical underwriting.

For additional information, request the brochure *Continuing Insurance at Retirement for Local Government Employees (TCRS Participants)* from the TCRS Retiree Insurance Section at 1-877-681-0155.

HOSPITALIZATION INSURANCE AFTER MEDICARE ELIGIBILITY

Retirees and their dependents who are eligible for Medicare Part A may be eligible for the State's Medicare Supplement Plans. A brochure describing the plans available and the eligibility requirements can be obtained from your personnel office, by contacting TCRS, or by accessing the TCRS website.

Employees who are eligible for Medicare at retirement (or who have Medicare eligible dependents) should submit an *Application for Medicare Supplement Programs* with their retirement application to TCRS. This application must be submitted within 60 days of your effective date of retirement. A copy of the Medicare card must be submitted with the application.

Retirees and their dependents who become eligible for Medicare after retirement will be sent an application approximately three months before the date of their Medicare eligibility. To enroll in the Medicare Supplement plan, retirees must submit an application to TCRS within 60 days of Medicare eligibility. A copy of the Medicare card must be submitted with the application.

Premiums for the Medicare Supplement plan are deducted from the monthly TCRS benefit.

OVERPAYMENTS OR UNDERPAYMENTS

In the event that an error is made which results in a member or beneficiary receiving more

or less from the system than he should, the law states that the error must be corrected. Any overpayments or underpayments must be paid. If a payment error is discovered by the retirement office or by the member, the retirement office will take all necessary steps to correct the problem. Any member who has questions about the amount of a check should contact the Retired Payroll section.

DIRECT DEPOSIT

Direct deposit of pension benefits is required by State law. This plan guarantees that the money will be deposited in the member's financial institution by the last business day of each month, even if the member is away on vacation or ill. This service also relieves the member from concern over lost or stolen checks.

The member should still notify the retirement system if his home address changes. Important correspondence such as statements for income tax purposes and notification of cost-of-living increases will still be sent to the member's home address.

SOCIAL SECURITY BENEFITS

Social security benefits are paid in addition to the amount of retirement allowance received from the TCRS. Social security benefits do not begin automatically once age and service requirements are met; a member must complete an application and submit it to the Social Security Administration. A member covered by social security should contact the nearest social security office for more information regarding estimates, applications, and Medicare coverage. Visit Social Security on the Internet at www.ssa.gov.

TEMPORARY RETURN TO SERVICE

Any retired member may return to service after 60 days without loss of retirement benefits for the equivalent of 120 days within a 12-month period. A retired member who returns to service before 60 days is also limited to half-time. If employed as a teacher in an institution of higher education, the member may teach 24 quarter hours or 18 semester hours. Compensation is limited to 60% of final salary indexed by 5% per year. A *Temporary Employment Report* must be completed and filed with the TCRS Benefits section before the employment period begins.

If a disability retiree returns to any employment which results in earnings in excess of the Social Security Administration's definition of gainful employment, the disability benefit will be suspended. As of January 1, 2005, this amount was \$830 per month.

FULL-TIME OR PART-TIME EMPLOYMENT AFTER RETIREMENT EXCEEDING THE TEMPORARY RETURN TO SERVICE PROVISIONS

If a retired member returns to service on a full-time or part-time basis in any position covered by the retirement system, his retirement allowance is suspended during reemployment. Any retiree who returns to service in a covered position has the option of becoming a member of the TCRS or of making an irrevocable election not to participate; however, regardless of his choice, his retirement benefits will cease while he is reemployed.

A reemployed retiree who elects to again become a member and who completes three or more years of creditable service will have his benefits recomputed on the total number of years of

Tennessee Consolidated Retirement System

service and the highest average final compensation. If the additional service is less than three years, benefits are computed on the last period of active service and added to the original benefit. If the retiree selected the Social Security Leveling Plan at retirement, the member must repay the supplement received under the leveling plan in order to have the benefit recalculated.

If the reemployed retiree chooses not to participate, his employer will not make contributions on his behalf nor will he receive any additional benefits based on his reemployment.

TAXES

FEDERAL INCOME TAXES

The TCRS is a qualified pension plan under Section 401(a) of the Internal Revenue Code and payments received from the plan are taxed according to the rules that apply to qualified pension plans. Those rules vary depending on the type of payment received. Detailed information on the federal income tax rules applicable to payments received from TCRS is provided in the TCRS publications, *Taxes on TCRS Benefits* and *Special Tax Notice Regarding Plan Payments*.

STATE INCOME TAXES

The State of Tennessee does not apply a state income tax to TCRS benefits (or to any other pension benefits) received by state residents.

FEDERAL AND TENNESSEE ESTATE TAXES

Generally, retirement benefits payable to a survivor from the TCRS are included in the taxable estate of the member. Estate tax will not normally be due on the payment of retirement benefits to a member's spouse since the net value of property passing to a surviving spouse usually does so free of federal and Tennessee estate taxes. Different federal and state exemption limits currently apply to property passing to someone other than the spouse.

Tennessee Inheritance Tax: In 2005, property (including TCRS benefits) having a value of less than \$950,000 can pass to someone other than the member's spouse free of Tennessee inheritance tax. The exempted amount becomes \$1,000,000 in 2006 and after.

Federal Estate Tax: In 2005, property (including TCRS benefits) having a value of less than \$1,500,000 can pass to someone other than the member's spouse free of federal estate tax. The exempted amount becomes \$2,000,000 in 2006 and \$3,500,000 in 2009.

ADDITIONAL TAX ASSISTANCE

Questions concerning federal taxes on payments from the retirement system should be directed to the Internal Revenue Service, a professional tax advisor, or an attorney. IRS publications and forms are available free of charge. To obtain the ones you need, call 1-800-829-3676, download them from the [IRS site](#), visit a local IRS office, or write to the IRS Distribution Center, P.O. Box 9903, Bloomington, IL 61799. Questions concerning Tennessee estate taxes should be directed to the [Tennessee Department of Revenue](#), a professional tax advisor, or an attorney licensed to practice in Tennessee.

ADMINISTRATION

The Tennessee Consolidated Retirement System (TCRS) is a trust established by the General Assembly of the State of Tennessee for the purpose of administering a retirement program for public employees. The trust instrument is enacted as state law in Chapters 34-37 of Title 8, *Tennessee Code Annotated*. Amendments to the plan may only be made by legislation enacted by the General Assembly of the State of Tennessee.

A Board of Trustees was created to administer and manage the retirement system. The Board consists of the following members:

- ❖ State Treasurer
- ❖ Director of the Retirement System
- ❖ Commissioner of Finance and Administration
- ❖ Comptroller of the Treasury
- ❖ Administrative Director of the Courts
- ❖ Commissioner of Personnel
- ❖ Secretary of State
- ❖ Chairman and Vice-Chairman of the legislative Council on Pensions and Insurance (non-voting)
- ❖ Three elected teacher representatives
- ❖ Two elected state employee representatives
- ❖ One representative appointed by the Tennessee County Services Association
- ❖ One representative appointed by the Tennessee Municipal League
- ❖ One representative appointed by the County Officials Association of Tennessee
- ❖ One retired state or higher education employee appointed by the Governor
- ❖ One retired teacher elected by the Tennessee Retired Teachers' Association (non-voting)

The State Treasurer is responsible for the operation of the retirement system. The Director of the retirement system is appointed by the State Treasurer and is the chief administrative officer of the plan.

The retirement system is funded by employee contributions, employer contributions, and investment earnings. All contributions received are held in trust until disbursed as retirement allowances or refunds to withdrawing members.

Funds of the TCRS are invested by the Investment Division of the Treasury Department, primarily in low risk, high yield stocks and bonds. Investment policy is established by the Board of Trustees upon receiving and considering the advice of the Investment Advisory Council. The Investment Advisory Council consists of six professionals with experience as investment portfolio managers, economists, and investment advisors appointed by the

Tennessee Consolidated Retirement System

Treasurer with the consent of the Board of Trustees. A complete annual financial report containing financial, actuarial, and investment information is published annually and made available to all TCRS members.

In addition to providing retirement coverage for state employees, higher education employees and teachers, the TCRS also provides coverage for employees of local governments (political subdivisions) which elect to participate. Since the employer costs for local government employees are paid by the political subdivision rather than by the state, certain provisions of the system may differ slightly for these members. These potential differences are noted where applicable. Participating local governments should inform their employees of any specific options which apply.

This booklet is intended to provide Group I Political Subdivision members of the Tennessee Consolidated Retirement System with a general outline of their retirement plan. Booklets are available from the retirement office for other membership classifications. This booklet summarizes the plan provisions applicable to individuals who were members of the plan on July 1, 2005. The information in this booklet is subject to legislative change and judicial interpretation. It does not supersede nor restrict procedures or authority established under state statute. Statutory authority for the plan is contained in Chapters 34-37 of Title 8, *Tennessee Code Annotated*. Wherever used for convenience, the masculine pronoun includes the feminine.

The Tennessee Department of Treasury operates all programs and activities free from discrimination on the basis of sex, race, or any other classification protected by federal or Tennessee state law. Individuals with disabilities who may require an alternative communication format for this or other Treasury Department publications, should contact the Treasury ADA coordinator at 615-741-2956.

RETIREMENT GLOSSARY

Average Final Compensation (AFC): The average of the member's five highest consecutive years of salary.

Benefit Improvement Percentage (BIP): The General Assembly and the TCRS Board of Trustees authorized a five percent base benefit improvement for all Group I teachers and state employees effective January 1, 1994. This improvement is available to political subdivision employees if it has been authorized by the political subdivision.

Contributory Member: A member who makes contributions to the retirement system from his salary.

Cost-of-Living Adjustments: An annual increase of up to three percent given to retirees who have been retired for at least 12 months on July 1 of each year. (This is available to local government employees if authorized by the political subdivision.)

Creditable Service: Membership service under the retirement system for which contributions are made by the member or are assumed by the member's employer on behalf of the employee plus any other periods of service credited to the member by the retirement system (military service, educational leave, etc.).

Disability: The inability to engage in substantial gainful employment due to a physical or mental impairment which can be expected to last a continuous period of not less than 12 months.

Early Retirement: A reduced benefit payable to a member who retires prior to attaining the requirements for a full service benefit.

Employer-Assumed Employee Contributions: The retirement contributions paid by the employer on behalf of the employee. These contributions are credited to the member's retirement account if he was an active employee immediately preceding and on the date his employer became non-contributory.

Gainful Employment: A member is not eligible to draw disability benefits from TCRS if he is able to engage in gainful employment. Gainful employment means any type of work which results in earnings exceeding the amount the Social Security Administration applies to its disability retirees. As of January 1, 2005, this amount is \$830 per month. (This amount is adjusted annually.)

In Service: An employee is considered "in service" if he has not been refunded or retired and death occurs within 150 days of his last paid day of employment with a covered employer.

Maximum Benefit: The benefit payable at retirement under the regular formula is limited to 90 percent of the member's AFC. If the political subdivision has authorized the optional five percent benefit improvement, the benefit is limited to 94.5 percent of the member's AFC.

Membership Date: The later of (1) the date the member first enrolls in the TCRS and makes any required contributions or (2) in the case of an individual who has forfeited his membership by taking a refund of his member account, the date of re-entry to active membership in the system. A redeposit or back payment of previously withdrawn contributions does not restore a forfeited membership date.

Minimum Benefit: The minimum retirement allowance payable to any member who has 10 years or more of creditable service and who has met the conditions for service retirement is \$8 per month multiplied by the number of years of service. The minimum benefit is \$7 if the member has less than 10 years of service or if he is employed by a political subdivision that has not passed an option to increase the benefit to \$8. The benefit will be reduced if the member retires early or chooses an optional payment plan. The minimum benefit before reductions cannot exceed 100 percent of the member's AFC.

Non-Contributory Member: A member who does not make contributions to the retirement system from his salary.

Optional Payment Plans: Plans available to a retiree to allow for continuing monthly benefits to be payable to the designated beneficiary upon the death of the retiree.

Political Subdivisions: City or county governments or other entities created by the state or by local governments which have elected to participate in the retirement system.

Service Retirement: An unreduced benefit payable to a member who has met the requirements for retirement. For Group I members, the requirements are attainment of age 60 with vesting rights or completion of 30 years of creditable service at any age (see Vested Member).

Social Security Integration Level: Average of the social security wage bases. It allows the benefit formula to provide a slightly higher benefit rate on a portion of the AFC.

Social Security Leveling Plan: A benefit payment plan which allows a member to convert his retirement into an increased benefit payable prior to the date he is eligible to receive a social security benefit and a reduced allowance payable after that date so that his total income will be approximately the same before and after the commencement of social security payments.

Vested Member: A member who has accrued enough years of service to guarantee him a monthly retirement benefit once age requirements are met. A political subdivision employee joining TCRS after June 30, 1979 attains vesting rights after either five years or ten years of service, depending upon the election made by the political subdivision. Members joining prior to July 1, 1979 attain vested rights after four years of membership service.

Benefit Estimate Request

If you are a member of the Tennessee Consolidated Retirement System and are considering retirement within the next three years, you may obtain an estimate of your benefit by providing the following information:
